

Agenda COST Action FP1101 WG1 Workshop, Telc, 20 June 2013

Morning Session 10:15 – 12:45

Time	Station
10:15 – 10:30	Pin penetration
10:30 – 10:32	Exchanging ideas/responding to questions
10:32 – 10:47	Resistance drilling
10:47 – 10:49	Exchanging ideas/responding to questions
10:49 – 11:04	moisture measurement
11:04 – 11:06	Exchanging ideas/responding to questions
11:06 – 11:21	Stress wave tomography
11:21 – 11:23	Exchanging ideas/responding to questions
11:23 – 11:38	Videoscopy
11:38 – 11:53	Exchanging ideas/responding to questions
11:53 – 11:55	Screw withdrawal
11:55 – 11:57	Exchanging ideas/responding to questions
11:57 – 12:12	Core drilling
12:12 – 12:14	Exchanging ideas/responding to questions
12:14 – 12:29	Internal stress test, stress measurement at micro level
12:29 – 12:31	Exchanging ideas/responding to questions
12:31 – 12:43	Semi-destructive testing device for mechanical properties assessment (developed in CET)
12:43 – 12:45	Exchanging ideas/responding to questions

Afternoon Session 14:45 – 17:15

Time	Station
14:45 – 15:00	Pin penetration
15:00 – 15:02	Exchanging ideas/responding to questions
15:02 – 15:17	Resistance drilling
15:17 – 15:19	Exchanging ideas/responding to questions
15:19 – 15:34	moisture measurement
15:34 – 15:36	Exchanging ideas/responding to questions
15:36 – 15:51	Stress wave tomography
15:51 – 15:53	Exchanging ideas/responding to questions
15:53 – 16:08	Videoscopy
16:08 – 16:10	Exchanging ideas/responding to questions
16:10 – 16:25	Screw withdrawal
16:25 – 16:27	Exchanging ideas/responding to questions
16:27 – 16:42	Core drilling
16:42 – 16:44	Exchanging ideas/responding to questions
16:44 – 16:46	Internal stress test, stress measurement at micro level
16:46 – 17:01	Exchanging ideas/responding to questions
17:01 – 17:13	Semi-destructive testing device for mechanical properties assessment (developed in CET)
17:13 – 17:15	Exchanging ideas/responding to questions
